CRUISES

GUIDELINES

V1- June 2025

A romantic couple is shown from the chest up, embracing each other in a forest setting. The image is heavily stylized with a solid blue background and a white wavy pattern that resembles water or ripples. The couple's figures are semi-transparent, allowing the pattern and text to be seen through them. The woman is on the right, leaning into the man on the left. They are both wearing dark clothing. The text 'NAUGHTY BU NATURE' is written in a white, hand-painted, brush-stroke font across the middle of the image.

OUR VISUAL IDENTITY

CREATIVE STRATEGY

The graphic proposal for Temptation Grand Cruises is the final result of our strategic communication work.

The graphic, typographic, chromatic, and visual elements used in this identity effectively connect an attractive visual concept with the brand's core values.

On its own, the identity is capable of conveying the fun and forward-thinking spirit of Temptation Grand Cruises.

LOGO

Our logo is the visual representation of our brand, consisting of text and an icon that, while perfectly distinct, should always be used together for better recognition in the market.

It should be used as a visual identifier, not as a decorative element. It is important that every user of the visual identity system understands the need for consistency in our corporate visual expression.

Consistency is key to success in a world where signs and symbols play a crucial role.

ICON (ISOTYPE)

Throughout history, the apple has symbolized temptation, making it a fundamental part of our image.

As the icon of our visual identity, the isotype provides a simplified way for us to be recognized at any time and place.

It can be used as a decorative detail and, in very specific cases, as a substitute for the full logo (imagotype).

COLOR VARIATIONS

Color variations of the logo may be used when conditions prevent the use of corporate colors. Positive or negative versions will be used.

The proper application in monochrome ensures the logo remains legible and recognizable.

PROPORTIONS

GRID

It is essential that the original proportions of the logo are never altered.

While the size may change, it must always be scaled proportionally. Using this grid as a guide, the logo can be reproduced across any format or medium. The symbol and logotype must always maintain the specified proportions and composition (see illustration).

MINIMUM SIZE

To ensure optimal legibility, maintain visual integrity, and preserve brand recognition, a minimum recommended size has been established: Printed: 7 cm for the imagotype and 1 cm in height for the isotype. Digital: 42 px in height (see illustration)

There is no maximum size limit for the logo.

Printed 7cm | Digital 42px

CLEAR SPACE

The brand must always have a clear space (a minimum area of free space surrounding it), which must be respected and left free of any elements that could interfere with or disturb it.

Use the height line “x” as a unit of measurement to always maintain the required clear space.

 1x is equivalent to the letter “O”.

SLOGAN

The slogan, “Naughty By Nature,” refers to the safe and comfortable space the brand offers to free-spirited travelers.

The slogan may appear in three formats:

1. In two lines
2. In one line
3. Accompanied by the logo

The third format can include the logo, as long as it is separated by a vertical dividing line.

Additionally, all slogan versions must use the Stone Harbour font, either horizontally or vertically, and letter size can be adjusted for added dynamism.

COLORS

TEMPTATION GRAND CORPORATE

The corporate colors support effective brand communication. They must be applied without variations and should never be substituted.

PANTONE: For direct ink printing.

CMYK: Values for print that correspond to the direct inks (results may differ in quality and color fidelity compared to PANTONE).

RGB: Values for digital media usage.

HEX: Web-compatible color values.

TEMPTATION GRAND CRUISES

To ensure proper brand differentiation, Temptation Grand Cruises will use only turquoise, pink, and navy blue as primary brand colors.

TYPOGRAPHY

BODY TEXT TYPEFACE

For regular body text, Aaux Pro Regular will be used, with Pro Light, Pro Medium, or Pro Black variations allowed for titles, web pages, or standout text.

The signature typeface for emphasis, short phrases, and special uses will be Din Condensed Bold.

All uses of this font should be limited to specific and formal needs and must be reviewed and approved.

COMPLEMENTARY TYPEFACE

For promotional items or texts where the brand's more playful side should be showcased, we'll use the Stone Harbour typeface.

PATTERNS & GRAPHIC ELEMENTS

The graphic elements and patterns to be used include the brand's signature anchor symbol and curved lines representing waves, which bring dynamism and vitality to the design.

The suggested patterns represent the sexy minimalism that characterizes Temptation.

For consumer-facing materials, we will use turquoise, magenta, and navy blue patterns.
